

# Outpace Your Competition

Don't spend this summer waiting for November.  
Spend it preparing for November.

## Base Building

Establishing a base of support is essential and a Telephone Townhall is a great way to do it. Showcase your candidate or your issue, promote high-level endorsements, answer FAQs, and speak directly to a large audience.

## Volunteer Recruitment

It's normal: many campaigns and party organizations struggle to maintain their grassroots army from one election to the next. CHQ can utilize texts, automated calls, and live calls to generate a list of potential volunteers for your field team.

## Coalition Building

Summer is the perfect time to identify and organize like-minded conservatives who want to get involved. Sometimes, they even need to register to vote! CHQ can register voters and activate effective, engaged coalitions with automated calls, texts, and live calls for a personalized touch.

## Event Turnout

Let the CHQ team take the stress of event planning off your shoulders. Our team can use calls and texts to deliver important information such as date, time, and location to attendees, and answer any event-related FAQs. Our agents can even manage RSVPs by tracking who clicked your link!
