

# Trust the Campaign Experts

Live calls, telephone townhalls, full-service texts, and automated calls to help Republicans and conservatives win.

## Live Persuasion & GOTV Calls

How do you reach voters who have tuned you out of their streaming TV and digital scroll, opted out of texts or weren't home when you knocked their door? Live calls empower campaigns at every level to reach voters with a human connection, at scale. Quickly introduce your candidate or issue to persuadable voters. Urge them to request or return mail-in ballots. Get low propensity voters out to the polls and confirm supporters have a plan to vote.

## 100% Full-Service Texting

You don't have time to chase 10DLC registrations, manage opt-outs or figure out deliverability metrics. Just send us your list and what you want to say, and we will take care of everything. You can share text, pictures, videos, and track who clicked your link. It's the fastest, and most cost-effective way to introduce a candidate, deliver last-breaking information, and fight negative attacks.

## Telephone Townhalls

Reach an audience of hundreds, or even thousands, with an outbound dial to both mobile and landline phones and online streaming. Answer questions, learn what your audience thinks, and identify supporters and volunteers. We'll make sure your event runs smoothly and results in actionable data.

## Custom Plans

Want to stretch your voter contact budget 70% further and win your swing district by 9 points? That's exactly what one CHQ client did with a fully integrated phone plan. We'll write your free custom plan and show you how to do the same.
